

# LIVE WEBINARS THROUGHOUT APRIL

To keep you at the forefront of dental expertise, OraPharma is offering convenient, live webinars on a wide range of topics.

## CHOOSE BETWEEN 2 SESSIONS FOR EACH DATE

### Session 1: 1 PM EST

12 PM CST | 11 AM MST | 10 AM PST

#### Shades of Gray: Crossing the Line of Diagnostics

Presented by Katrina Sanders

Re-examine the diagnostic parameters surrounding the transition from gingivitis to periodontitis through an interactive assessment of clinical findings.

Tuesday, April 14 | Thursday, April 23

#### Periodontal Disease in the 21st Century

Presented by Dr. Tim Donley

Chronic inflammatory periodontal disease (CIPD) is a site-specific disease with potential systemic ramifications. Learn which patients should be treated differently and how to maximize treatment outcome success.

Monday, April 13 | Thursday, April 16

Wednesday, April 29

#### When to Pull the Trigger on Periodontal Therapy: A Risky Behavior

Presented by Katrina Sanders

Consider the role that risk assessment plays in implementing active therapy.

Monday, April 27

### Session 2: 4 PM EST

3 PM CST | 2 PM MST | 1 PM PST

#### Adjunctive Therapy in Patients With Adult Periodontitis

Presented by Cathy Cabanzon

Stay up to date on the current understanding of biofilm development, periodontal disease, and treatment recommendations.

Monday, April 20

#### Socket Preservation: Easy as a Piece of Cake

Presented by Dr. Eric Chen

Get tips and guidelines for achieving optimal results when using a variety of regenerative products.

Wednesday, April 15 | Wednesday, April 22

Wednesday, April 28

#### Patient Communication

Presented by Cathy Cabanzon

Learn reliable ways to communicate with patients regarding treatment planning and acceptance.

Tuesday, April 21
