

Consent for Treatment during CoVID-19 outbreak

Patient's Name: _____

Date of Birth: _____

Our goal is to protect the safety of the dental office, our team members, the patients we serve and other individuals who come upon the premises.

Our staff are symptom-free and, to the best of their knowledge have not been exposed to the virus. However, since we are a place of public accommodation, other persons (including other patients) could be infected, without their knowledge. Despite our careful attention to sterilization, disinfection, and use of personal barriers, there is still a chance that you could be exposed to an illness in our office. "Social Distancing" nationwide has reduced the transmission of the Coronavirus. Although we have taken measures to provide social distancing in our practice, due to the nature of the procedures we provide, it is not possible to maintain social distancing between the patient, dental staff and sometimes other patients at all times.
