

Dear Patient,

We are happy to announce we resumed dental appointments that were paused due to the COVID-19 outbreak. Services resumed on <Day, Month, and Date>. This includes regular visits for exams, cleanings, and x-rays. If you need to make an appointment, please give us a call or you can make your appointment with us online. If you already have an appointment, you will receive a confirmation message.

As we resume operations, our top priority is the health and safety of our patients and employees. We are committed to providing a safe environment for you. We continue to apply infection control practices that have always been in place in our office and we have implemented new infection control and treatment guidance to further improve the environment for patients and employees.

Prior to your appointment, we will send you a link to complete a short online pre-appointment screening. If you are able to, please print your results and bring them with you to your appointment. Also, to help limit the number of patients in our waiting area and increase social distancing, we ask that only the scheduled patient come into our office. Please avoid bringing family members. However, if one of your children has an appointment, you will have the option to come into the office.

When you arrive at our office, please call us and we will provide you with further instructions. Please wear a face mask while in our office.

Additionally, if you or anyone in your household has had contact with anyone confirmed positive for COVID-19 in the 14 days prior to your appointment, we may need to reschedule your appointment to a later date.

For more information, [please read our FAQs](#) about the new procedures you will see in our office.

If you have any questions or concerns, please call our office. Thank you for being our patient. We are excited to welcome you back and continue with your dental care.

We look forward to seeing you soon.

Thank you.
